

SupplyWorks Carousel

The Cornerstone of Advanced Inventory Management

A proven solution from an industry leader.

SupplyWorks Carousel

When you're building an end-to-end process for advanced supply chain and inventory management, you need a smart, efficient hub – the SupplyWorks Carousel from AmerisourceBergen®.

The SupplyWorks Carousel is one of many RxWorks™ Suite technology and consulting solutions that optimize the medication management process and enable improved patient care, increased cost savings, and market growth opportunities.

This comprehensive solution is driven by SupplyWorks inventory management software and includes a reliable, ergonomically-designed storage and retrieval carousel that has been proven in hundreds of healthcare facilities nationwide.

Together, the SupplyWorks Carousel helps you increase inventory accuracy, reduce shrinkage, and decrease costs. Best of all, SupplyWorks Carousel is from AmerisourceBergen, the industry leader in fully integrated inventory management solutions.

Safer, More Efficient Operations Begin Here.

SupplyWorks Carousel offers an ideal combination of advanced features, for a safer, more efficient medication management process including:

- Ergonomic design to minimize bending and reaching
- Larger workspace than other carousels
- Microprocessor control override eliminating need for hand crank
- Emergency back-up power switch

Better Control of Your Pharmacy and Stockroom Inventory

With the SupplyWorks Carousel as the cornerstone of your inventory management processes, you'll eliminate the complexity of managing multiple systems. Software highlights include:

- Complete inventory management of all contents within the carousel
- Barcode receiving ensures accuracy when stocking your pharmacy
- A purchase order module optimizes carousel-specific orders to better manage costs
- Robust inventory reporting capabilities

There's no better way to streamline your operations and reduce costs.

Enhanced Safety for Your Patients

The ultimate goal of any dispensing system is patient safety. And the SupplyWorks Carousel offers sophisticated safeguards to help ensure your patients get only their prescribed medications. These include barcode verification scanning, on-screen image verification, and pick-to-light technology. These features and many more make it easy for your staff to choose the right medication every time.

Improved Cost Control

For your healthcare facility, the SupplyWorks Carousel helps control costs through advanced inventory management tools.

For example, it allows you to set par levels and track inventory within the carousel, for faster stock turnover and lower carrying costs. In addition, it provides sophisticated user access restrictions that help reduce shrinkage and loss.

And for even greater efficiency across your supply chain, integrate the SupplyWorks Carousel with other automation solutions in AmerisourceBergen's RxWorks Suite portfolio of technologies including ClinicWorks pharmacy workflow software and MedSelect® Flex™ automated dispensing cabinets.

Increased Staff Satisfaction

For your pharmacy staff, the SupplyWorks Carousel is easy to learn, easy to use, and easy to customize, thanks to well-designed software navigation and a touch-screen monitor. The state-of-the-art light curtain system quickly stops carousel rotation to protect your technicians from injury. Finally, the redundancy features built into the SupplyWorks Carousel enable your staff to spend more time being productive and less time troubleshooting.
